2020 International Conference on Ozaki Operation

10.09.2021

8:00 - 17:00

HELIOS KLINIKUM KREFELD

COURSE DIRECTOR
JAROSLAV BENEDIK, MD

Dear colleagues and friends,

it is a great pleasure and honor for me to invite you to the **first worldwide** international specialized congress on **Ozaki operation**. During the one day meeting you will listen to the lectures of the leaders in this field, as well as their tips and tricks. You will get an opportunity to see a live operation with the possibility of direct communication to the operating surgeon. Interested attendees can learn more during wet lab hands-on training under direct supervision of experienced proctors, which will take place immediately after the end of the plenary session.

My invitation was already accepted by: **Shigeyuki Ozaki** – inventor of the operative technique, **Gebrine El Khoury** – a honorable aortic valve reconstructor, **Christopher Baird** – pediatric heart surgeon from Boston with the highest amount of Ozaki operations on children, **Markus Krane** – deputy director of the German heart center Munich – performing the first randomized study, **Martin Kostelka** – pediatric heart surgeon, innovator of the pulmonary valve construction and **Domenico Mazzitelli** – the cardiac surgeon who had a major influence together with Dr. Ozaki on spreading of this operation in Germany and Italy.

You are also kindly invited to send videos showing your personal experiences with this operation technique. The six elected videos will be presented during the afternoon interactive session.

The congress will take place in Helios Krefeld which is very close to Düsseldorf International Airport.

I look forward to welcoming you in Krefeld.

Yours
Jaroslav Benedik

COURSE PROGRAMME

08:00 FORUM 1

SCIENTIFIC PROGRAMME (LECTURES)

Chair: J. Benedik, C. Baird

- Welcome remarks *Benedik*
- My tips and tricks how to perform an excellent operation *Ozaki Baird*
- Experience in pediatric population (Ozaki / Ross) *Baird*
- Using the pericardium during aortic valve reconstruction - pitfalls and failures *El Khoury*
- My way to Ozaki operation, milestones in development of special technique *Benedik*

COFFEE BREAK

- The first randomized study - preliminary results *Krane*
- The Benko procedure *Kostelka*
- The pioneer of Ozaki procedure in Germany - my personal view *Mazzitelli*

12:30 LUNCH BREAK

13:00 FORUM 2

LIVE FROM OPERATION ROOM (INTERACTIVE SESSION)

Chair: N.N.

Moderator: N.N.

- Live Case Demonstration *Benedik*

COFFEE BREAK

- Video presentations *All*
Multiple cases (5 min. each followed by 2 min. discussion)

16:30 PANEL DISCUSSION

All speakers

17:00 END OF THE SCIENTIFIC PROGRAMM HANDS ON WETLAB TRAINING

Proctor: J. Benedik / N.N.

18:00 END OF THE MEETING
